

CONTEC Cassette rear hub "Eroq DB"

11-/12-speed SRAM XD, 135 mm mounting width

RRP: €79.95

A hub is like the heart of a bicycle wheel—it forms the stable core that ensures a smooth riding experience. A rear hub also has the additional task of securely holding the cassette in place to promote both optimal power transfer from the Chain and seamless shifting. Our CONTEC EROQ cassette rear hub is exceptionally sturdy and can therefore withstand the high torque and heavy weight of an e-bike. The hub features an aluminum body with a hollow axle and is attached to your bike using a compatible QR skewer (e.g., CONTEC EROQ.R Rear). The compatible QR skewer is included with the hub. The standard mounting width of the CONTEC EROQ rear cassette hub is 135 mm. It is also compatible with 6-bolt brake rotors and has 32 spoke holes. The EROQ rear hub features a robust SRAM XD Freewheel Body made of durable steel with high-quality ball bearings. The ratchet freehub system, with 27 teeth and 3 Paws, ensures rapid interaction between the freehub and the hub body, so that your pedaling effort is quickly converted into forward momentum.

Basic Data

Supplier Article Number:	RTP XD DB
EAN	4251971146358
MSRP:	€79.95
Fedas-Code	160452
SB-Article	No
Bidex-Code	204030
DST-Code	2P04
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.369 kg

Technical Data

Axle	hollow axle 9 mm
Bearing type	ball bearing
Brake mounting	disc - 6-hole
