

VICTORIA Electric urban bike "UTILYON 5" (#1)

wave, 29", cedar grey, ENVIOLO "HD" continuously variable, 52 cm

RRP: €6,999.00

Unlike the two derailleur models, which are ideally suited for hilly terrain, the Victoria “UTILYON 5” is a superb touring bike for primarily flat, long-distance routes—such as the 520 km Weser Cycle Route.The 380% gear ratio range of the continuously variable planetary gearbox in the rear hub finds an ideal partner in the high-torque Bosch “Performance CX” Drive, which in turn can draw on the 1,475 watt-hour capacity for an exceptionally long time.This makes daily rides covering three-digit kilometer distances no longer daunting. Combined with the timing belt, the drive system also promises very low maintenance requirements.
