

## VICTORIA Electric SUV "FYBRON 6" (#1)

wave, 27,5", far blue, 1x10-speed SHIMANO "Deore", 46 cm / S

**RRP €5,999.00**

The carbon monocoque frame of the "FYBRON" promises low weight and maximum riding stability. The "FYBRON 6" derailleur model saves even more weight thanks to particularly light FSA aluminum components and comes to a total weight of around 25 kg. In view of the PowerTube 750 batteries used, which already weigh 4.4 kg, this is a respectable figure. Savings have also been made elsewhere: Superlight tubes and lightweight MTB tires with a particularly low rolling resistance tread further reduce the overall weight. The permissible total weight of the "FYBRON" series is 140 kg. In addition to the weight saving, the carbon frame naturally offers another advantage: the design language is seamless and organic due to the lack of visible joints as with welded aluminum frames. It looks as if it has been cast from a single mold. This is further emphasized by the paint finish on all "FYBRON" models. The main frame color, in the case of the "FYBRON 6" far blue, has a color gradient. The blue becomes darker the further down the Frame it goes. The effect is also interrupted by the matt black separating paint that runs from the head tube to the down tube and back up to the seat tube. In riding practice, the carbon Overlander knows how to impress. The crisp derailleur shifts the ten gears with sporty speed. The air-sprung FOX AWL (Adventure without Limits) 100 mm Fork was specially developed for use on fully equipped SUV e-bikes and responds extremely sensitively. The Bosch "Kiox 300" color display provides razor-sharp information even in the dark and can be operated intuitively via the LED remote. It is compact and offers a color display that is protected from splash water and dust and is easy to read. Fully networked in the smart system, it continuously receives new functions via the eBike Flow app. The 120 lux LED front headlight is also happy to extend the tour into the dark. A special highlight: the Front Light has a high beam function that can be activated at the touch of a button on the Handlebar, which further enhances visibility at night. All "FYBRON" models are available in two Frame versions. As with all new Victoria developments, the Bosch PowerTube batteries integrated in the down tube can be removed from the top, but can of course also be charged directly in the bike when installed.

### Basic Data

Supplier Article Number:	BK25HV6130
EAN	4251971151918
MSRP:	€5,999.00
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	VICTORIA
Unit of measure:	PIECE
Weight	25.3 kg

### Technical Data

Battery capacity	750.0 Wh
