

CONTEC Chain Guide "Guide.O Bash"

black

Price: €37.50

Make your MTB experience more stable with the Guide.O Bash, our chain guide for mounting on bikes with and without ISCG-05 mount, as this product comes with a bottom bracket adapter. This high-quality product combines lightweight aluminium with robust plastic to ensure consistent and efficient guiding performance and a solid bash guard. This effectively prevents your chain from slipping, even on dynamic rides. Our Guide.O Bash is characterised by its precise workmanship. It can be easily attached to the ISCG-05 mounting points on your bike and has solid nylon cage with pulleys on bearings and a bash guard. This makes it ideal for all bikes with a chain ring that have an increased risk of the chain slipping off due to rough terrain or jumps and require protection of the chain ring against damage. The Guide.O Bash is suitable for use with chain rings from 32 to 38 teeth.
