

CONTEC Mini Pump "Air Support Flex"

black / riviera blue

RRP: €22.95

Whether for the everyday ride to work or for a longer bike tour, a mini pump is always worthwhile. Because once the air has escaped from the Tires, every journey, regardless of its length, is extremely strenuous. With its 21 cm length, the CONTEC Mini Pump Air Support Flex does not take up much space in your luggage. Thanks to its integrated Bracket for bottle cage eyelets, you can even mount it directly on your bike. The Air Support Flex can also really "flex" (i.e. show off) with its pumping power: After just a few strokes, the Hand Pump reaches up to 7 bar or 100 psi of air pressure. This is easily enough to inflate any standard bicycle tire in no time at all. You don't even need to worry about whether the pump fits your bike, as the triple valve head makes the Air Support Flex compatible with standard Auto (AV), Presta (SV) and Dunlop (DV) valves. Inflation itself is just as flexible thanks to the 15 cm long, extendable tubes. The Hand Pump is made of aluminum and plastic and is available in two paints.

Basic Data

Supplier Article Number:	GP-87E CT BLK/BLUE
EAN	4251971157255
MSRP:	€22.95
Fedas-Code	160653
SB-Article	Yes
DST-Code	2I02
