

CONTEC Mini Pump "Air Support Go Switch"

black / riviera blue (special item, loose)

RRP: €17.95

The provisions are packed, the route is planned and the bike is ready to go - to ensure that your painstaking preparation and planning of your next bike tour was not in vain, this item in particular should not be missing from your packing list: a reliable Hand Pump! The CONTEC Air Support Go Switch fits all common valves (Dunlop, Presta & Schrader). Its special feature is that its maximum air pressure can be changed with a Shifter. If the Shifter is set to "High Pressure", the Air Support Go Switch reaches up to 8 bar / 120 psi - if the lever is set to "High Volume", it reaches up to 5.5 bar / 80 psi. With the fold-out T-grip, inflation is even easier than with conventional Hand Pumps. Thanks to its compact format with a length of just 25 cm, the Air Support Go Switch takes up little space in your luggage. You can even attach it to your bike's bottle cage with the included Bracket.
