

CONTEC Saddle "Dynamic"

dimensions (LxW): 280 x 131mm

Price: €19.99

The name says it all - the CONTEC Dynamic saddles are made for dynamic trails and speeds. With their features, such as their AirFoam filling and extra-light nylon fibre composite shell, they are the ideal saddles for road cyclists. Thanks to the special welding of the shell and the synthetic PVC cover, the saddles are 100% waterproof, so you can get on your bike without any problems, even in wet conditions. Impacts caused by uneven surfaces are absorbed by the cushioning materials inside the saddle. Furthermore, the "Sport Zone", i.e. the lowered centre section, ensures that pressure on the sensitive areas of your body is reduced. A scale on the high quality CrMo rails helps you to adjust the saddle so that you can adjust the angle to your exact preference.
