

CONTEC Saddle "Anatomic"

Dimensions (L x W) 279 x 179 mm (special item, loose)

Price: €19.99

Travelling by bike can be so enjoyable... as long as you have a bike on which you can sit comfortably! Because there's nothing that can spoil a charming cycle tour as much as having pain in your buttocks or back during it. To ensure that your travelling experience remains a pleasant memory, you should choose a trekking saddle that suits you. The CONTEC Anatomic saddles made from high density PU foam offer you comfort and freedom of movement on all your tours. Inside there is a comfortable gel insert that moulds to the shape of your buttocks when you sit down and slides back into its original shape when you get off. The surface consists of a synthetic PVC cover that is vacuum-sealed, 100% waterproof and therefore easy to clean. The Zone Cut version has a hole in the centre of the saddle to provide even more relief for the most sensitive areas of your body. The handle on the underside of the saddle is also particularly practical, making it easier for you to transport your bike easily. When developing the shell structure, we opted for a patented double density (D2). The durable and lightweight plastic core shell is used to cushion the contact zones, i.e. where you are in contact with the saddle. The elastomer suspension provides additional cushioning. The PU foam inside the saddle is made from recycled materials.

Basic Data

Supplier Article Number:	SAMPLE VL-6494
MSRP:	€49.95
SB-Article	Yes
Fedas-Code	160267
DST-Code	2C01
Bidex-Code	206010
Brand/Supplier	CONTEC
