

CONTEC Saddle "Static"

Dimensions (L x W) 279 x 134 mm (special item, loose)

RRP €49.95

For road cyclists, the choice of bike parts depends on a variety of factors. Aerodynamics, weight, comfort, material and so on... The CONTEC Static saddle scores extremely well with these features. It comes either with a fully cut-out or half-lowered centre section, which reduces the pressure on the sensitive areas of your body. The filling of the Static saddles is made of AirFoam - a cushioning material that absorbs shocks. The saddle shells are made of particularly lightweight nylon fibres. Thanks to the special welding of the shell and the synthetic PVC cover, the saddles are 100% waterproof, so you can get on your bike without any problems, even in wet conditions. A scale on the high quality CrMo rails helps you to adjust the saddle so that you can adjust the angle to your exact preference.

Basic Data

Supplier Article Number:	SAMPLE VL-1862
MSRP:	€49.95
SB-Article	Yes
DST-Code	2C01
Bidex-Code	206010
Fedas-Code	160264
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.29 kg

Technical Data

Features	lowering , waterproof cover
Gender	unisex
Main colour	black
Rails material	CrMo (stainless steel)
Range of application	road
Seatpost diameter from	micro-adjust
Shell material	nylon
Variant	Article
