Price: €7.99

The initial equipment of many children's and youth bikes is not exactly the best. To make the journey to school or the family bike trip as comfortable as possible for our little cyclists, the bike and its parts should be tailored to the rider. Our CONTEC Magic children's saddle offers plenty of comfort, so that the little ones enjoy their riding. The high density PU foam inside the saddle absorbs shocks from uneven surfaces and protects the back in the long term. The single density (D1) shell design also contributes to the high level of comfort. The synthetic PVC saddle cover in fox design also enhances the look of the bike. The black rails of the saddles have an integrated scale for easy adjustment.
