Not everyone wants to ride their bike all year round. And that's okay! For this case, we have added our Bike Cover Bike.Shelter to our range. The foldable bike garage is the ideal enclosure for your bike when it goes into hibernation. You should still make sure that your bike is protected during the winter - especially if it is an e-bike.Another scenario: You live in the city and always park your bike outside. If it is then exposed to wet weather conditions, this can very quickly lead to rust on the wear and attachment parts. So? You can also counteract this by protecting your bike.CONTEC Bike.Shelter is made from a PU-coated 300D Oxford material, which is waterproof, tear-resistant and hard-wearing. It comes with a Fastening Belt with buckle for protection against the wind. The bike cover also has extra eyelets for a bike lock so that you can additionally secure your bike against theft.The Bike.Shelter is suitable for a bike or e-bike up to 29" and measures (L x W x H) 200 x 70 x 110 cm.
