

## VICTORIA Electric folding bike "Fylgran 3" (#1)

unisex, 20", blackberry violett, 5-speed SHIMANO "Nexus" coaster brake, 45 cm / Onesize

**RRP €3,999.00**

Whether on the daily commute to the station or for short journeys within the city - the Victoria FYLGRAN 3 cuts a fine figure in any case. Thanks to its compact folding size (88x77x38 cm), it can easily be taken on the train and stowed away in a niche at home in the evening. To save as much space as possible, not only the Frame is foldable, but also the Pedals. The Handlepost can be adjusted in height. The new Bosch Smart System Performance engine provides superior support for trips beyond the city limits. It is powered by the Bosch "PowerPack 545", which has enough energy for day trips. The Gates Straps transfer the power from the legs and the engine directly to the rear wheels. Particularly valuable for commuters: the Straps are resistant to moisture and dirt and can be easily cleaned with water. It also requires hardly any maintenance as it runs without chain greases, which also means that trouser legs stay clean. Gears are shifted using the tried-and-tested 5-speed "Nexus" hub gears from Shimano - you can choose between neutral and coaster brake. The hydraulic Disc Brakes provide additional safety reserves. New are the Schwalbe "Super Moto X" tires, which give the FYLGRAN in the 62-406 version a sturdy appearance that goes well with the compact bike. And there is another difference compared to the FYLGRAN 1: if the Bosch eFlow app is downloaded, the response behavior of the different support levels can be fine-tuned - either even more intensively than the factory setting already specifies or in a particularly energy-saving manner for maximum range. Navigation apps such as Komoot or Strava are also compatible with the eFlow app, so that city trips don't end up in the middle of nowhere.
