

CONTEC Rearview Mirror "E-View Joker XS"

left

RRP: €25.95

When driving in city traffic, you need to be especially careful and always keep an eye on your surroundings. Our E-View Joker XS Rearview Mirror is a great help in this regard. It ensures that your field of vision has fewer blind spots from now on, so you don’t have to turn around to see the other road users behind you.The CONTEC E-View Joker XS is equipped with a Dazz lens made of safety glass that reduces distracting reflections by up to 75%. The Rearview Mirror is designed for handlebar inner clamps and fits inner diameters ranging from 17 to 23 mm.The frame is made of nylon reinforced with fiberglass, making the mirrors nice and light yet very sturdy, so they don’t wobble. The best part comes last: the E-View Joker XS folds down! This saves you a lot of space when you park your bike, and on top of that, you don’t run the risk of the Rearview Mirror being accidentally hit by passing cars, scooters, or other bikes and possibly breaking off as a result.
