

QiO Carrier Plate "Rack Plate MIK HD"

black

Price: €13.95

The QiO Rack Plate MIK HD makes your QiO Long even more flexible. The Carrier Plate is mounted directly on the QiO Long carrier and is ideal for securely attaching MIK accessories (such as the QiO crate Fred) or a child seat with MIK adapter. For you, this means: Accessories are firmly attached but can be changed quickly - practical for everyday use. Thanks to the robust aluminum design, everything remains stable, even when the bike is fully loaded. Particularly clever: you can mount up to two plates one behind the other and thus significantly increase the storage space. This makes your bike even more versatile for everyday use - whether for shopping, going to daycare or out and about in the city.

Basic Data

EAN	4251971184985
MSRP:	€24.95
