

CONTEC Damper Pump "Air Support Shock Rocket Digital"

black

RRP: €59.95

Our new digital Damper Pump makes it even easier and more precise to adjust your Suspension Fork or suspension seatpost. The Air Support Shock Rocket Digital provides up to 27.5 bar or 400 psi, which can be precisely adjusted using the digital Pressure Gauge. The digital Pressure Gauge delivers exceptionally accurate readings and can be easily switched between psi, bar, and kg/cm². For maximum precision in suspension setup, the pump features a micro-bleed valve that allows you to adjust the pressure in fine increments of 1 to 2 psi. The leak-free Auto-2-Stage Pump Head reliably prevents pressure loss when screwing the pump onto or off the Schrader valve, ensuring precise results.The high-quality, CNC-machined aluminum housing ensures a robust and durable construction while remaining lightweight. Combined with the flexible Pump Hose, the CONTEC Air Support Shock Rocket Digital offers maximum ease of use.

Basic Data

Supplier Article Number:	GS-53
EAN	4251971184381
MSRP:	€59.95
Fedas-Code	160655
SB-Article	Yes
DST-Code	2I02
Bidex-Code	301650
Brand/Supplier	CONTEC
Unit of measure:	PIECE

Technical Data

Cartridge icnl.	nein
Design	shock pump
Features	pressure gauge
Length	277.0 mm
Main colour	black
Max. pressure	400.00 PSI
Max. pressure	27.5 bar
Range of application	universal
Valve type	Schrader (AV)
Variant	Article
