

CONTEC Battery pump "Air Tronic Max"

black

RRP: €139.95

Manual effort is a thing of the past: Today, you can inflate your bike tires electrically! Our Air Tronic battery-powered pumps offer you maximum power. And now we're introducing our most powerful model: The Air Tronic Max is so powerful that it can even inflate truck tires with ease.This battery-powered pump is the largest in our line of electric pumps and serves as an all-around workhorse for your home or RV! And that's not just because of its powerful airflow of 45 liters per minute and its high battery capacity of 5200 mAh / 11.1 V, but also because of its smart features. For example, the Air Tronic Max has a built-in work light that lets you reinflate your air mattress in the tent—even in low-light conditions—if it has lost air overnight.Here's how it works: Attach the end of the extendable, 65-cm-long tube to the valve using the matching, built-in Adapter. Then set the desired air pressure on the digital Display and press Start. The Air Tronic Max will then quickly and automatically pump your bike, car, or truck tires (or whatever else you want to pump) to a pressure of up to 7 bar / 100 psi.You can inflate up to 84 bicycle tires on a single battery charge. After that, the Air Tronic Max only needs 150 minutes to fully recharge via the USB C cables.

Basic Data

Supplier Article Number:	AL7 CONTEC
EAN	4251971184374
MSRP:	€139.95
Fedas-Code	160653
SB-Article	Yes
DST-Code	2I02
Bidex-Code	301620
Brand/Supplier	CONTEC
Unit of measure:	PIECE

Technical Data

Features	extendable hose
Height	16.5 cm
Length	165.0 mm
Main colour	black
Max. pressure	100.00 PSI
Max. pressure	7.0 bar
Range of application	universal
Valve type	Dunlop (DV) , Schrader (AV) , Sclaverand (SV)
Variant	Article
Width	8.9 cm
