

CONTEC System Pedal "Pierce"

black

RRP: €39.95

Clipless pedals, also known as System Pedals, such as the CONTEC Pierce, are primarily used in competitive cycling. Especially among gravel bike and road bike riders, the “clip-in pedal” is a popular way to maximize energy transfer while pedaling. But clip-in pedals can also be quite appealing to mountain bikers and enduro enthusiasts.The Pierce features a clip-in system on both sides that, when used with the appropriate Pedal Cleats, secures the rider’s foot to the pedal. What might sound like a dangerous prospect to beginners at first is actually easy to learn. To unclip, you simply need to move your heel outward—a maneuver that’s a bit tricky at first before dismounting, but quickly becomes second nature.The CONTEC Pierce is equipped with the SPD SL system on both sides. This system features a CrMo cleat with adjustable release tension. The compact, one-piece aluminum body of the Pierce pedal has a CNC-milled CrMo axle with a high-quality, sealed industrial bearing. Each pair of Pierce pedals weighs just 380 grams.

Basic Data

Supplier Article Number:	P22 BLACK CT DESIGN
EAN	4251971189416
MSRP:	€39.95
Bidex-Code	202320
SB-Article	Yes
Fedas-Code	160376
DST-Code	2N02
Brand/Supplier	CONTEC
Unit of measure:	PAIR

Technical Data

Bearing type	sealed bearing
Design	system road
Frame material	aluminium
Height	3.4 cm
Housing material	aluminium
Length	8.1 cm
Main colour	black
System	on both side
Thread	9/16
Variant	Article
Width	6.9 cm
