

CONTEC Workstand "Rock Steel"

black

RRP 99,95 €

The big brother of the Rock Steady, our long-standing customer, has arrived and it is more robust than ever: here comes the Rock Steel Workstand! Even heavy e-bikes weighing up to 50 kilograms are no problem for it thanks to the high-quality steel used. Finally, no more back pain: thanks to the 360° rotating clamping mechanism and the height adjustment from 110 cm to 170 cm, you can say goodbye to your crooked back while servicing your bike. Instead, more comfort awaits you from now on when working on your bike. The scope of delivery includes three practical helpers in one set: You can easily stow the foldable Workstand in the compact Carrier Bag. The magnets Tool Tray can be rotated horizontally by 45° and offers enough space for your tools. In addition, the fixing bar for the Handlebar ensures that the Front Wheel does not swing arms back and forth while you are working on your bike. What would be a test of patience without a Workstand, the CONTEC Rocker Steel transforms into efficiency and comfort. Look forward to being able to carry out repairs and maintenance on bikes of all kinds from more comfortable angles and no longer having to resort to the classic emergency solution of "standing on your head".
