

atravelo Carrier "Tour Lite BS 28 AVS"

black

dimensions (LxWxH): 230 x 120 x 360mm

Price: 16,15 €

Versatile & strong Whether on tour, the daily commute or on the way to the shops, the Tour Lite BS 28 AVS Carrier from ATRAVELO is versatile and can be used on 28-wheelers. It is attached to the rear stays of your bike (the material for fastening is included in the scope of delivery). The aluminum tubes have a diameter of ten millimeters, which gives the Carrier good stability. Thanks to the ATRAVELO transport system, bags and baskets can be attached to the carrier without tools using the appropriate adapter, even on the lower pannier stays. This mounting method improves the luggage's center of gravity, which in turn ensures better riding characteristics. The stainless steel Spring Clamp allows loose items such as a picnic blanket to be transported safely. Reflectors and a maximum load capacity of 27 kg round off the character of this Carrier. Net weight: 705 g.
