

BASIL Rain Poncho "Mosse Unisex"

one size, olive green

RRP: 74,99 €

Versatile and airy rain protectionThe "Mosse Unisex" Rain Poncho from BASIL is quick and easy to put on when it rains. When not in use, it fits into the practical Storage Bag and can be carried compactly. When cycling, it protects you with its windproof and waterproof functional fabric, which is also breathable. The sleeves are slightly longer for arms that are usually bent when cycling. The hood is also versatile: it leaves enough space at the sides for full visibility and can be adjusted or removed completely. The generous cut, side pockets and tone-on-tone reflective elements contribute to comfort, wearer convenience and road safety. The front and back of the bike rain poncho are joined together with a Press Button. This keeps the legs protected and prevents the Poncho from flapping around in strong winds.
