

# BASIL Twin Bag "Urban Dry"

mat black, Universal Bridge System, suitable for MIK, Racktime, i-Rack / Carrymore plates (not included)

**Price: 54,49 €**

Waterproof & reflectiveThe "Urban Dry" double pannier from BASIL combines several practical features. The bag is waterproof and has a total capacity of 50 liters. There is enough space for shopping and nothing stands in the way of an extended shopping trip with this bag. The BASIL "Universal Bridge System" ensures that the bag fits on various carriers (including e-bikes). It can also be combined with Racktime, i-Rack and Carrymore plates, and that's not all: the double bike bag has an adjustable folding closure. The reflector sides also make you more visible in the dark. Lighting has also been taken into consideration. The option of attaching LED lighting ensures better visibility and therefore safety. The welded seams of the Bag and its Tarpaulin make the "Urban Dry" waterproof. This means that a rain shower is no longer an excuse not to go to the gym.
