This is a very practical function.The Bag is made of polyester and water-repellent Tarpaulin. This keeps all your things dry, whether you're shopping at the weekend or out and about in the busy city. The practical folding closure also prevents water from entering the Bag.The load volume of this double pannier varies between 48 and 53 liters. This depends entirely on whether you're coming home with a bag full of new clothes or new shoes, for example.When the Bag is empty, you can easily fold it up compactly thanks to its flexible side walls.
