

bobike Child Seat "Go Maxi Carrier"

cotton candy pink

RRP: 74,99 €

For mobile familiesThe new Bobike "Go CF" rear-facing child seat is available in five fresh pastel paints and, like the other child seats from Bobike, is made with a robust double-walled seat shell. Children from around 9 months can sit in the robust shell when they are able to sit stably themselves, and the "Go" is approved for weights up to 22 kg.This gives mobile parents a simple and practical way to take their children with them on all everyday trips or tours, especially as the Bobike child seat holder is also available separately for the second parent bike and others. Incidentally, the Bracket displays when the bars are correctly engaged. The "Go" can be placed behind the rider in the classic way using the Bracket on the seat tube (diameter between 28 mm and 40 mm) or clicked onto Carriers using the "Click & Go" Universal Adapter (for carriers in accordance with EN ISO standard 11243; please ask your bicycle dealer).The child is strapped into the padded (water-repellent padding) double wall shell via a three-point harness, the Lock of which parents (and only parents) can easily close and open with one hand. There is room for the feet on the height-adjustable footrests and they can also be strapped in using the loops. A reflector on the back provides additional safety when being seen. Tested in accordance with safety standard EN 14344, TÜV and GS.

Datos maestros

Número de artículo del proveedor:	8012300004
EAN	5604415088049
UVP	74,99 €
