

bollé MTB Helmet "Trackdown"

white, size M (55-59cm)

RRP: 119,99 €

Safely into the descentBOLLÉ has completely redeveloped the "Trackdown" and integrated its tried-and-tested features. For example, the "360° Fit System", which allows the helmets to be perfectly adjusted to the shape of the head. When choosing the material, BOLLÉ opted for a combination of different EPS (polystyrene) foams in order to be able to absorb both strong and less strong impacts equally well. The "Avid Progressive EPS" technology also includes the arrangement of the ventilation openings and channels inside the Helmet. BOLLÉ, itself a manufacturer of sport glasses for over 100 years, has even thought of the Sport Glasses: they can be stowed away using the "Opti-Dock System". The removable and washable inner lining and the Visor, which can be adjusted in three stages, are a good standard for high-quality helmets, allowing you to keep an overview on every MTBs tour.

Datos maestros

Número de artículo del proveedor:	31611
UVP	119,99 €
DST-Code	3F01
