

AXA Rear Light "Slim Steady"

distance between screws: 50mm, bulk

RRP: 11,95 €

The practical slim oneThe "Slim Steady" design fits in perfectly with the trend towards ever lighter and narrower bikes. This rear light is not even 20 mm thick. Thanks to its minimal height, you can use it on almost any Carrier.The intelligent design of the rear lights ensures optimum light supply and distribution. As a result, you as a cyclist are clearly visible to oncoming traffic not only from behind but also from the side. You can also see other road users at a distance of up to 600 m.The built-in parking light function provides additional safety. This ensures that the rear lights remain lit for another 4 minutes when stationary.Thanks to the practical pressure connections, this rear light can be easily connected to both a flank dynamo and a Hub Dynamo. You can also combine the "Slim Steady" with a 6 V e-bike battery pack. The rear light is shock and water resistant, as the lens and rear plate are welded together.
