

AXA Battery LED Front Light "Compactline 20 USB"

black

RRP 32,95 €

Compact & powerfulThe "Compactline 20 USB" Battery Front Light from AXA is quite bright thanks to its modern double lens technology. The small, compact lights have a sporty look and can be conveniently recharged using the USB Cables supplied. It throws a cone of light through which you can see 40 m and can be seen over a distance of 2.5 km.Attaching the Front Light is child's play with its silicone strap and is possible on almost any bike.Two light output modes are available: 20 and 10 lux. While the Battery lasts 12 hours when charged at 10 lux, it lasts 6 hours at 20 lux. The charging time is less than 2.5 hours. The service life of 1,000 charges is also impressive. The "Compactline 20 USB" therefore offers a sustainable alternative to the usual Battery lighting.The Battery Front Light offers good visibility at temperatures between -10 and 40 ° C, even in rain and snow. In addition, other road users can also see the cyclist from the side, as "Compactline" has additional windows on the side.
