

Dr. Pulley Variomatic weight

15,0g, Dr. Pulley

RRP: 74,86 €

Normal vario rolls wear out and flatten after some time at one or more points. This causes immediately an uneven acceleration. Those flattening?s are integrated by Dr. Pulley. That?s why they do not twist and therefore slip always at the same place and wear evenly. The result is an amazing, unprecedented ride quality and enhanced uniform acceleration without jerking. Excellent sliding properties on the aluminium variomatic material, as well as a significantly longer life thanks to the special self-lubricating polymer nylon material. No need of additional grease or lubricant. It is generally recommended by Dr. Pulley to use about 10-15% lighter rolls than the original. This proves a substantially stronger and steadier acceleration with constant high speed

Datos maestros

Número de artículo del proveedor:	SR-2517/15,0D04-5799
UVP	74,86 €
SB-Artículo	No
Marca/Proveedor	Dr. Pulley
Unidad de medida:	PIECE
Weight	0.117 kg

Datos técnicos

Artículo	Article
Cantidad de ruedecillas	8 pcs.
Color principal	Negro
Peso	15,0 g
Tamaño	25 x 17 mm
Versión	variomatic weights
