7-speed chains from CONNEX Halflink Chains have become an integral part of the BMX world. Since chains are subjected to heavy loads during some tricks, such as grinding, they should be particularly stable - as is the 1E8 from CONNEX. If you ride a bike with a 7-speed driveset, the 1E8 chain is just right for you. A Connecting Link is included to connect the two loose ends of the chain. The 1E8 is also "e-bike-ready", which means that it is also made for use on e-bikes.
