

EXIDE Battery "G12-16"

gelsealed

Solves the problem of possible leaks in a conventional battery. The electrolyte (acid) consists entirely of a non-liquid gel. Even in the event of damage to the Housing of the Battery, this electrolyte cannot leak. It provides the ultimate protection against possible acid damage to the motorcycle or Wheels. The service life of a gel battery is approx. 50 % longer than that of a conventional maintenance-free battery. According to the JB/4282-92 standard, a normal maintenance-free battery has a maximum service life of 200 charging cycles. This compares with up to 500 charging cycles for a gel battery.

Attention: Recharging only with so-called "intelligent charging devices" such as Optimate 4 and Intellicharger II. Damage caused by incorrect charging is not covered by the warranty!
Caution: Never open or drill into these sealed (gel) batteries or remove the sealing strip!

RRP: 151,92 €

Datos maestros

Número de artículo del proveedor:	EXIDE GEL G16
EAN	3661024034067
UVP	151,92 €
SB-Artículo	No
Marca/Proveedor	EXIDE
Unidad de medida:	PIECE
Weight	6.073 kg

Datos técnicos

Altura	165.0 mm
Anchura	75.0 mm
Artículo	Article
Atornilladura	M5
Capacidad 10 h	14.9 Ah
Capacidad 20 h	16.0 Ah
Corriente de arranque en frío CCA (EN)	100 A
Energía	172.00 Wh
Longitud	180.0 mm
Polo negativo	front left
Polo positivo	front right
Purga de aire	without
Tensión	12V
Versión	MTF , ready-to-use
Ámbito de aplicación	motorcycle
