

fi'zi:k Saddle "Terra Argo X5"

(LxW): 270 x 150mm, 271g

RRP: 99,00 €

Efficient & comfortableFIZIK's Terra concept covers all the requirements of a gravel saddle in order to master long tires on uneven roads efficiently and as comfortably as possible. The short Argo nose of the "X5" gives you an aerodynamic, aggressive riding position - without any pressure on sensitive areas of the body. The cutout with mudguard provides support and keeps mud from swirling up at the same time.The bendable saddle wings (Wingflex technology) provide a high degree of flexibility. They adapt to your leg movement when pedaling. This means there is no friction at the point where your thighs touch the saddle. The combination of "Type 2" padding, flexible carbon-reinforced nylon shell and an S-Alloy rail absorbs shocks and vibrations from rough terrain.
