

# fi'zi:k Road Shoe "Tempo Overcurve R5"

**black / pink fluo, size 46,5**

## RRP: 149,00 €

Timeless & versatile for cyclistsThe "Tempo Overcurve R5 " is a fast-fitting cycling shoe from FIZIK, suitable for every rider on every occasion. This road shoe has been designed to offer the timeless looks and versatile performance that make every ride an enjoyable experience. The classic aspects of a road shoe have been redefined with the unmistakable FIZIK identity and an intelligent, form-fitting construction. Overcurve " is a shoe construction with an offset collar that wraps around the ankle, following the natural misalignment of the two bony protrusions of the ankle: the outer and inner malleolus. The result is an asymmetrical shape in which the shoe manifolds over the foot from the outside to the inside. The shoe can be closed quickly and securely using a micro-adjustable "BOA IP1 Dial" Connector and a Velcro strap for an optimum fit in the forefoot area. The "R5 Nylon Composite" outsole is supple and comfortable even over long distances and without compromising pedaling performance.
