

# fi'zi:k MTB Shoe "Terra Ergolace X2"

**black / black, size 38**

## RRP: 119,00 €

Grippy & robustA shoe for trail rides, all-mountain adventures and more - that's the "Terra Ergolace X2" from FIZIK. The versatile MTB Shoes are designed for flat pedals and, with their grippy lug profile, give you optimum grip on the bike and plenty of grip off it when it comes to mastering carrying passages. The flat "X2" outsole also provides support - no matter what terrain you're riding on. The "Ergolace" design of the shoe hugs the foot and rounds off the fit with an ergonomic lace-up closure.The hard-wearing upper material is tear-resistant and offers the best protection in rain, wind and mud thanks to its ripstop fabric. The toe box is specially laminated with a PU material so that your toes are well protected on steep bends. It's no coincidence that the shoe fits your foot like a second skin. With the "Terra Ergolace X2", the developers at FIZIK have taken care to save weight and avoid excess material. Clunky looks and a loose fit are a thing of the past - this shoe shines with a slim silhouette and also cuts a fine figure off the saddles.
