

GAADI Tube

Dunlop valve (DV), 40mm

RRP: 11,99 €

Worth its weight in gold in the event of a puncture!Imagine you're a commuter rushing to work on your bike in the morning and you suddenly have a flat tire. Would you rather not imagine that? It's certainly not nice. But GAADI has launched a bicycle inner tube on the market that makes the whole thing much more bearable.The GAADI tube differs from other tubes in one respect: It has 2 airtight closed ends that are directly opposite each other in the tire. The advantage is that you do not have to remove and reinstall the Wheel when changing the inner tube. All you have to do is pull the old tube out of the tire, cut it and then place the new GAADI tube, slightly inflated, into the tire. Then pull one side of the tire back onto the wheels and finish pumping up the tube.The ride can continue faster than ever and without the need for many tools. You won't want to be without the GAADI tube when fixing punctures.

Datos maestros

Número de artículo del proveedor:	510317019111
EAN	8593375436748
UVP	11,99 €
Bidex-Code	204050
SB-Artículo	No
DST-Code	2A01
Fedas-Code	160477
Marca/Proveedor	GAADI
Unidad de medida:	PIECE
Weight	0.203 kg

Datos técnicos

Anchura pulgadas	1 1/2 , 1.50 , 1.60 , 1.75 , 1.75 x 1 1/2
Artículo	Article
