

hamax Child Seat Bracket

with lock or rather theft protection (lockable with key)

RRP: 34,90 €

Flexible use of the child seatAll rear-mounted Hamax child seats can be secured to the bike using this patented Mounting Bracket. This means that the child seat can be used for several bikes. The seat is then attached to the bike with a free-hanging carrying handle and can be mounted both with and without a Carrier. Thanks to the spring-loaded locking mechanism, the seat locks into place with an audible sound. When the seat rails are correctly mounted, green displays become visible. The Bracket fits almost all bike types and frames with a Ø between 28 and 40 mm. It ensures that the forces are evenly distributed across the frame to prevent deformation. Mounting is very simple with just 4 Screws. The Holder can be placed between Cable Clamps to prevent conflicts with the gear cable on the Frame. The Mounting Bracket is available in 2 versions: standard and lockable. With the lockable Holder, you can connect the child seats to the bike to reduce the risk of theft. With the "Quick Release System", the seat is released from the bike at the touch of a button on the front of the Holder.

Datos maestros

Número de artículo del proveedor:	HAM604002
EAN	7029776040020
UVP	34,90 €
DST-Code	2D04
SB-Artículo	Sí
Fedas-Code	160690
Bidex-Code	301090
Marca/Proveedor	hamax
Unidad de medida:	PIECE
Weight	0.365 kg

Datos técnicos

Artículo	Accessories
Color principal	Negro
Color secundario	Gris
