

KMC Chain "e11"

EPT anti-rust technology, self-service package, 136 links

Price: 18,13 €

11-speed chains from KMC In order to withstand the high forces of modern e-bike drives, KMC has designed the E11 chain especially for use on pedelecs. If you ride a bike with an 11-speed drive, the e11 chain is just right for you. The E11 is made of stainless steel, which has a number of advantages such as low maintenance and corrosion resistance. A special anti-rust coating makes the chain particularly robust and hard-wearing. In order to be able to close the chain properly, a Connecting Link is included in the scope of delivery, which connects the two loose ends. The note "E-Bike-special" indicates that the chain is specially designed for the requirements of an e-bike.
