

# KMC Chain "e1"

**EPT, self-service packaged, 130 links**

## RRP: 36,90 €

KMC E1 Chain To withstand the high forces generated by modern e-bike drives, KMC has designed the E1 chain specifically for use on pedelecs. The E1 is made of stainless steel, which offers several advantages, such as low maintenance and corrosion resistance. A special anti-rust coating makes the chain particularly robust and durable. A Connecting Link is included to join the two loose ends of the chain. Because the chain can withstand the forces of an e-bike, it is labeled “E-Bike Special.”
