

KMC Chain "Z1eHX Narrow"

EPT, self-service package, 128 links

RRP: 26,95 €

Z1eHX Narrow chains from KMC To withstand the high forces of modern e-bike drives, KMC has designed the Z1eHX Narrow chain especially for use on pedelecs. With its 128 links, the chain is made of durable steel. A special anti-rust coating makes the chain particularly robust and hard-wearing. A Connecting Link is included to connect the two loose ends of the chain. Because the chain can withstand the forces of an e-bike, it is marked with the addition "e-bike special".
