

# KMC Chain "Z1eHX Narrow"

**silver, nickel coating, self-service package, 112 links**

## RRP: 18,90 €

Chain Z1eHX Narrow from KMC Chains on pedelecs have to withstand significantly higher stresses than standard chains. More weight, higher speeds and powerful drives are the reasons for this. KMC has developed its Z1eHX Narrow chain especially for the pedelec aftermarket. With its 112 links, the chain is made of durable steel. The chain is particularly hard-wearing thanks to its special anti-rust coating. In order to be able to close the chain properly, a Connecting Link is included in the scope of delivery, which connects the two loose ends. The note "E-Bike-special" indicates that the chain is specially designed for the requirements of an e-bike.
