

SCHWALBE Tube "Nr. 9 A"

Schrader valve (AV)

Price: 3,73 €

The No. 9 A from SCHWALBEA bike without a tube is possible, but not rideable. That's why you should always have a spare tube with you when you're out and about. The tube must fit! You can tell which size Tube is the right one by looking at the sidewall of most Tires. The first two digits of the ETRTO measurement indicate the tire width, while the following digits indicate the inner diameter of the tire in mm. The No. 9 A covers numerous widths for 24" tires. The length of the Schrader AV valve is 40 mm.
