

SCHWALBE Tube "Nr. 1"

Schrader valve (AV)

Price: 3,25 €

The No. 1 from SCHWALBE If you have a flat tire on the road, you won't get any further. That's why it's best to take a suitable Spare Tube with you on tour. This way, you can continue riding soon and patch the defective tube during the break or later at home. The ETRTO dimension on the side of the tire provides information about the appropriate tube. The first two digits before the dash indicate the tire width in mm, the digits after the dash indicate the inner diameter of the tire. No. 1 has the ETRTO dimensions 47-203, 54-203 and 62-203, which is suitable for 12" wheels. For the valve and the correct length, it is best to use the old tube as a guide: the Schrader AV valve on the No. 1 is 40 mm.
