

SCHWALBE Tube "Nr. 3"

Sclaverand valve (SV)

Price: 3,73 €

SCHWALBE No. 3 If your bike has a flat tire on the road, you can't get any further. So it's best to take a suitable Spare Tube with you. This way you can continue riding soon and patch the defective tube during the break or later at home. The ETRTO dimension on the side of the tire provides information about the appropriate tube. The first two digits before the dash indicate the tire width in mm, the digits after the dash indicate the inner diameter of the tire, which is 16" for No. 3. Pay attention to the rims: the Sclaverand SV valves are 40 mm long.
