

SIGMA SPORT Battery LED Rear Light "Blaze"

black

RRP: 32,95 €

More safety thanks to brake light functionThe "Blaze" from SIGMA SPORT is the first StVZO-approved rear lights from SIGMA SPORT with a brake light function.It can also be used during the day when the continuous light is switched off, which is particularly beneficial for frequent riders such as commuters and athletes who ride in groups. Another safety plus is the integrated brightness sensor, which automatically activates the rear lights in poor light conditions. The long light duration, the low weight of 22 grams, a visibility range of 500 meters and the affordable price make the "Blaze" an all-rounder for every seatpost.
