

SIGMA SPORT Light set "Aura 35 USB / Nugget II"

black

RRP: 44,95 €

An unbeatable light duoSafety in a double pack: the Aura 35 USB Battery Front Light and the small but powerful Nugget II rear lights from SIGMA SPORT. The front lights impress with two features across the board. Firstly, additional side light elements increase visibility in road traffic. Secondly, the light range is a full 45 meters. The lighting intensity can be regulated via two setting modes. The splash-proof lights (IPX4) last for around five hours at 35 lux, and around twelve hours in eco mode at 15 lux. The Battery can be fully recharged in a maximum of three hours using the micro USB cable supplied. This works without any problems on any Computer and is also possible during operation. The SIGMA SPORT light is equipped with a switch-on protection to prevent it from being accidentally switched on in your Hand Bag. This means that it switches on with a double click. It switches off with a long press of the button. The light is equipped with CREE LEDs, which are known above all for their energy efficiency. The Front Light can be mounted without tools and has a 360° adjustable Holder. It is also compliant with road traffic licensing regulations.

Datos maestros

Número de artículo del proveedor:	17360
EAN	4016224173600
UVP	44,95 €
DST-Code	2E01
