

SIGMA SPORT Battery-LED Front Light "Aura 30"

black

RRP: 19,95 €

One Front Light, two light modesThe Aura 30 LED Front Light from SIGMA SPORT offers you the choice between 30 and 15 lux. The lamps not only make you more visible to oncoming traffic. Thanks to the side light elements, you can also be seen from the right or left. Two AA batteries power the Front Light. While the lighting time in standard mode is a good five hours, it is much longer in ecomode - namely 15 hours. The light range is a good 40 meters. The charge level display shows when the batteries need to be changed. The SIGMA SPORT light is equipped with switch-on protection to prevent it from being accidentally switched on in your Hand Bag. This means that it switches on with a double-click. It switches off with a long press of the button. The Front Light is splash-proof (IPX4) and has a 360° adjustable Holder. The silicone holder can be mounted without tools. The total weight is 68 grams.
