

SILCA Saddle Bag "Mattone"

black / red

RRP: 59,95 €

Text still to be editedNamed after the Italian word for brick, SILCA is launching its latest saddle bag.The water-repellent and extremely compact MATTONE is attached underneath the saddle and uses the BOA® closure system. In addition, it has a first-class zipper design: the Bag can be opened on the bike or simply removed and then opened like a book for optimum access to the contents.The SILCA MATTONE is compact yet spacious. It comes with some practical helpers in a pinch: a Tube, a CO2 cartridge and a tire levers. There is a small, separate compartment for important items such as ID, a credit card or cash. The design combines style and safety awareness - the elegant black exterior is complemented by reflective graphics for better visibility. The interior stands out with its bold red color and fits in harmoniously with the rest of the SILCA range.The BOA® fastening system allows the Bag to be attached and removed quickly and intuitively. For additional safety, a wide strap made of Hypalon is attached - a material that is normally used in high-quality inflatable boats and whose robustness far exceeds that of conventional PVC. This element is one of many that demonstrate the SILCA makers' love of detail. The water-resistant YKK Aquaguard® zipper prevents the ingress of moisture and also protects the contents from dust and dirt.
