

SUPERNOVA Rear Light "E3 Tail Light 2"

silver polished, carrier attachment, 50mm

Price: 26,79 €

Rear Light Insurance Anyone who is guided by a powerful front light on their bike also wants to be seen and protected by the rear lights. SUPERNOVA has therefore developed the "E3 Tail Light 2" for the E3 Front Light. With "Twin Beam Technology", it offers very bright illumination to the rear and sides of a total of 250°. The parking light electronics of the E3 Tail Light 2 are outsourced to the E3 Front Light. This explains the small design and the weight of just 12 g of the CNC-milled rear lights. It is also completely waterproof and, with its three LEDs, is one of the brightest rear lights approved according to StVZO. Available in different paints for mounting on the seatpost and Carrier.

Datos maestros

Número de artículo del proveedor:	N-TK2-SLV
EAN	4260224792075
UVP	59,90 €
DST-Code	2E03
Fedas-Code	160672
SB-Artículo	Sí
Número de registro RAEE	DE63711969
Bidex-Code	207040
Marca/Proveedor	SUPERNOVA
Unidad de medida:	PIECE
Weight	0.108 kg

Datos técnicos

Alimentación eléctrica	E-bike battery
Artículo	Article
Color principal	Plata
Descripción del color	silber poliert
Fijación	carrier 50mm
Funciones	standlight
Lámpara	LED
Tensión de servicio	6,0 V
Tipo de tensión	DC
Versión	rear light
Ámbito de aplicación	bike
