

SUPERNOVA Rear Light "E3 Tail Light 2"

black polished, seat post attachment, 18g

RRP: 69,90 €

Bright rear insuranceIf you are guided by a powerful Front Light on your bike, you also want to be seen and protected by the Rear Light. SUPERNOVA has therefore developed the "E3 Tail Light 2" for the E3 Front Light. With "Twin Beam Technology", it offers very bright illumination to the rear and sides of a total of 250°.The parking light electronics of the "E3 TAil Light 2" are outsourced to the E3 Front Light. This explains the small design and the weight of just 12 g of the CNC-milled rear lights. It is also completely waterproof and, with its three LEDs, is one of the brightest rear lights approved by the German Road Traffic Licensing Regulations (StVZO). Available in versions for mounting on the seatpost and on the Carrier.

Datos maestros

Número de artículo del proveedor:	N-TK2-S-V12-BLK
UVP	69,90 €
DST-Code	2E03
Fedas-Code	160672
SB-Artículo	Sí
Bidex-Code	207040
Marca/Proveedor	SUPERNOVA
Unidad de medida:	PIECE
Weight	0.111 kg

Datos técnicos

Alimentación eléctrica	E-bike battery
Artículo	Article
Color principal	Negro
Descripción del color	schwarz poliert
Fijación	Seatpost
Funciones	standlight
Lámpara	LED
Tensión de servicio	12,0 V
Tipo de bicicleta eléctrica	special
Tipo de tensión	DC
Versión	rear light
Ámbito de aplicación	bike
