

tern Carrier "Hauler Rack"

suitable for HSD, GSD, BYB, NBD, Quick Haul and Quick Haul Long

RRP: 150,00 €

It packs everythingThe TERN "Hauler Rack" is our most variable front carrier: large enough for most transportation tasks but compact enough not to make handling the bike more difficult. In short: an ideal upgrade for TERN "GSD" and "HSD". Thanks to the design without railings and the supplied lashing straps, you can strap down your daypack, transport boxes or postal parcels, for example. Alternatively, you can attach suitable transport boxes or similar items to the holes in the carrier base if you regularly want to transport groceries or other small items, for example.Load capacity: 20 kg, convenient variable loading possible from large boxes and parcels to bulky objects. Includes lashing straps and two bottle holder holders (on the driver's side). Fits TERN "GSD" and "HSD" without increasing their overall length. Compatible with the Quick Release CMT QRs for simple, quick (dis)assembly without tools and suitable for all TERN bikes with Combo Mount mounts

Datos maestros
