

THULE Bike Carrier "VeloSpace XT 2 Bike 13Pin "

black / aluminium

RRP: 829,95 €

Flexible and stableThe "Velo Space XT 2" from THULE is a versatile rear carrier for two e-bikes or bikes weighing up to a maximum of 60 kilograms, whereby each bike can also weigh 30 kg. If the optionally available "Velo Space XT Bike Adapter" is installed for a third bike, one bike can still weigh 30 kg. The extra large distance of 25 cm between the wheel rails makes it easy to maneuver even massive bikes on the carrier. The wheelbase can be up to 1300 mm due to the long wheel rails. And the tires can also be up to 4.7" wide thanks to the extra-long rim retaining straps with ratchet function. The wheels are secured via the removable Frame Brackets, which use the "Thule AcuTight" torque limiter buttons to indicate with a click when the optimum torque has been reached. The "Velo Space XT 2" can be easily folded down using the foot pedal, even when loaded with bikes, so that you can access the trunk when transporting bikes. In addition, the bikes can be locked to the bike carrier (and the bike carrier to the trailer coupling). The locks are included in the scope of delivery. For storage in the garage, the carrier can be folded from the dimensions (L x W x H) 135 x 69 x 79 cm to 135 x 74 x 25 cm. Weight: 18.7 kg. With 13-pin plug connection.

Datos maestros

Número de artículo del proveedor:	938000
UVP	829,95 €
Fedas-Code	100406
DST-Code	2L03
SB-Artículo	No
