

TRELOCK Frame Lock Set "RS 430"

RS 430 AZ standard, removable key, ZR355

RRP 71,95 €

Frame Lock Set RS 430 A frame lock is ideal for quickly locking your bike in front of the bakery. It is even better if the bike is properly locked to a fixed object. This is both the case with the "RS 430" frame locks from TRELOCK. The frame lock achieves security level 4 on TRELOCK's own scale of 1 to 6. Security is ensured by the sturdy lock body and the "IN-X" lock cylinder, which is operated with a reversible key. In addition, the "ZR 355" connection chain from TRELOCK offers security when connecting. It secures the bike by looping it around a fixed object. The bolt at the end is then inserted into the frame locks and locked. The "ZR 355" consists of 6 mm thick chain links, which are firmly encased for impact protection. The connecting chain is compatible with numerous TRELOCK frame locks and is available in many paints.

Datos maestros
